Do not return residues to the storage containers.

Smoking, eating and drinking are forbidden in  
application area. For personal protection see section 8.  
Comply with the health and safety at work laws.

When operators, whether spraying or not, have to work  
inside the spray booth, ventilation is unlikely to be  
sufficient to control particulates and solvent vapour in  
all cases. In such circumstances they should wear a  
compressed air-fed respirator during the spraying

process and until such time as the particulates and solvent vapour concentration has fallen below the exposure limits.

The workplace should be equipped with an emergency shower and eye-rinsing facility.

Avoid contact with the skin, eyes and clothing.

Handle in accordance with good industrial hygiene and safety practice.

Do not breathe vapors or spray mist.

Advice on protection against fire and explosion : Avoid all sources of ignition: heat, sparks, open flame. Product may charge electrostatically: always use earthing leads when transferring from one container to another and earth containers. It is recommended that operators should wear antistatic clothing and footwear. The relevant fire protection measures should be noted. Use explosion-proof equipment. Vapors are heavier than air and may spread along floors. Vapors may form explosive mixtures with air.
